

The hard facts about Kodak Capture Pro Software

- Output unlimited searchable PDF-A files at no additional cost
- Eliminate click charges from your budget
- View up to 36 scanned pages at a time, with thumbnails
- Produce bi-tonal and color, or bi-tonal and grayscale images simultaneously
- Enable background output processing
- View batch structure in real time

The front-end solution that boosts your bottom line

Compatible with virtually every name-brand scanner on the market today, **Kodak** Capture Pro Software makes document capture faster, easier and more efficient.

And with no programming requirements, click charges, training or setup costs, it offers maximum ROI and the lowest TCO of any capture solution available.
